Closing Date : 09/07/2017.

Employment Type : Fixed Term.

Duration : 3 yrs in the first instance.

Faculty / Organisational Unit : Biology, Medicine & Health.

School/Directorate : School of Biological Sciences.

Division : Infection, Immunity & Respiratory Medicine.

Hours Per week : 1 FTE.

Salary : NHS consultant grade as per years of seniority.

Location : Oxford Road, Manchester.

Job Reference : BM&H-10199.

The University is seeking to expand its translational research agenda in fungal diseases with appointment of a senior clinical academic at consultant level. An enthusiastic, broadly-trained clinician and researcher is sought to contribute to the care of patients with complex infection problems, especially aspergillosis at the National Aspergillosis Centre. You will join 5 existing ID consultants. You will have a strong track record of publications related to fungal diseases, preferably aspergillosis and/or pulmonary infection, immunology and diagnostics. It is expected that close links will be forged with the Manchester Fungal Infection Group (MFIG). See <http://www.uhsm.nhs.uk/infectiousdiseases/Pages/default.aspx>,

www.fungimanchester.org and <http://www.nationalaspergillosiscentre.org.uk/>

This is an excellent opportunity to join a world leading group and develop globally recognised expertise in *Aspergillus* and fungal diseases and their management.

*The School is strongly committed to promoting equality and diversity, including the Athena SWAN charter for gender equality in higher education. The School holds a Silver Award which recognises their good practice in relation to gender; including flexible working arrangements, family-friendly policies, and support to allow staff achieve a good work-life balance. We particularly welcome applications from women for this post. Appointment will always be made on merit. For further information, please visit:
