

1. DZL-Academy Symposium „When bugs hit the lung - infections as drivers of acute deterioration of lung disease“

The Academy of the German Center for Lung Research is very pleased to invite you to a joint virtual symposium aimed at early career scientists on a subject of shared interest:

When bugs hit the lung - Infections as drivers of acute deterioration of lung disease

With this Symposium we are bringing together early career scientists from multiple clinical and basic research organisations and societies to encourage exchange on translational science.

Please follow the link Home | DZL Academy to gain access to the detailed programme and for further information about registration and ePoster abstract submission, which closes August 27.

Abstract-Deadline: 27. August 2021

Registrierung bis 15. September 2021
