

CMMC SYMPOSIUM 25 Years of Progress in Molecular Medicine: From Basic Research to Clinical Application - GOES HYBRID

The CMMC Symposium will be held as a hybrid meeting with live streaming including an interactive virtual meeting platform. The scientific program includes the following sessions:

- Session I: Stem Cell Biology and Regenerative Medicine
- Session II: Molecular Oncology and Genomic Medicine
- Session III: Precision Medicine in Cancer Treatment
- Session IV: Infectious Diseases
- Session V: Neuroplasticity and Neurodegeneration
- Session VI: Metabolism and Aging

Full Program: CMMC SYMPOSIUM_25 Years of Progress in Molecular Medicine

Participation in the Symposium is free of charge - free registration is required: CMMC Symposium 2021_Registration

Call for submission of abstracts for digital poster presentation - deadline August 06, 2021. Further information: [here](#)
