

Webinar: COM-COV VACCINE TRIALS

VACCELERATE, the EU funded clinical research network for the coordination & conduct of COVID-19 vaccine trials hosts a webinar where latest research from the COVID-19 research field is presented by investigators and their groups.

This gives investigators the opportunity to present their results to a broad audience of stakeholders, other scientists and researchers, as well as fosters the connection between research projects performed in Europe.

At the webinar on September 15th at 2 pm (CEST) Prof. Matthew Snape, University Oxford, UK will present the UK Com-COV/Com-COV2 study.

Link to the registration for the webinar: <http://webinar.idinmotion.de/>

Registration is available from Wednesday 8th September.
