

UNIVERSITÄTS
KLINIKUM
HEIDELBERG

Epidemiologist (m/f/d)

wanted from February 2024 at the **Department of Infectious Diseases and Tropical Medicine.**

Who we are: The Department of Infectious Diseases and Tropical Medicine at Heidelberg University Hospital has a clinical and research mandate. The division is embedded in a research-active university campus (incl. the Heidelberg Institute for Global Health). On the research side, we are a diverse team of people from around the globe, all passionate about Global health, trying to make a difference for people living in limited resources settings. For further info on the team and research: www.denkglobaldx.org.

We need your expertise, passion and drive to support the team. The position is limited to 2 years with the intention to make it longer term. The position will be based in Heidelberg, Germany; partially remote work will be possible.

Job-ID: V000012040

Field of application: Sektion Infektions- und Tropenmedizin

Location: Heidelberg

Start date: February 2024

Job Category: Science and teaching

Working hours: full-time (100%)

Published: 13.11.2023

Limitation: Temporary (24 months - extension is sought)

Contract: TV-L

Your Tasks

You will be responsible for projects that focus on validation and implementation studies as well as evidence synthesis related to Global health relevant diagnostics in different settings primarily internationally but also in Germany. Some of the projects will enable WHO review and policy making. The specific activities will include but not be limited to:

- Managing complex, multi-partner projects (including travel)
- Leading the study team to design, develop and deliver clinical studies to agreed upon timelines, including training, monitoring
- Designing, developing, maintaining clinical database and analyse clinical data
- Preparing internal and external scientific presentations, research manuscripts and review articles, as required (incl. travel for presentations)
- Supporting/leading grant development activities

Your Profile

- Post graduate knowledge in epidemiology or related field. At least 2 years experience in planning, execution, and analysis of clinical studies, preferably diagnostics studies.
- Strong scientific background and clear understanding of infectious diseases and related public health issues. A medical degree will be an asset.
- Appropriate track record in publication of research manuscripts in peer-reviewed journals commensurate with career stage, including as lead author
- Relevant experience working in multi-cultural backgrounds would be an asset.
- Ability to work without close supervision as well as to work on a result-oriented basis. Willingness to expand knowledge base and take on new topics. Effective communication. Knowledge of the German language would be an asset.

What we offer

- Goal-oriented, individual training and development opportunities
- Possibility of mobile working and flexible working hours within the framework of flexitime
- Possibility of doctorate
- Possibility to take over project responsibility
- Possibility to publish scientifically is offered and supported
- Interdisciplinary cooperation with Heidelberg Institute for Global Health and other departments
- Regular team meetings
- Collectively agreed remuneration, attractive company pension scheme (VBL)
- 30 days vacation
- Sustainable travel: job ticket
- Family-friendly working environment: cooperative arrangements for childcare, subsidy for child vacation care, advice for employees with relatives in need of care
- Wide range of health, prevention and sports offers

Please note that the UKHD is subject to the provisions of the Infection Protection Act. Therefore, valid proof of measles immunity is required for all persons employed at the UKHD.

We stand for equal opportunities. Severely disabled persons are given priority in the case of equal suitability. The University Hospital aims to generally increase the proportion of women in all areas and positions in which women are underrepresented. Qualified women are therefore particularly encouraged to apply. Full-time positions are generally divisible, unless there are official or legal reasons to the contrary.
